Roadside Assistance:<sup>19</sup> 48 months, 24-hour roadside assistance with free travel planning.

Please see your Lexus Dealer for details.

1. Vehicle Stability Control (VSC) and Vehicle Dynamics Integrated Management (VDIM) are electronic systems designed to help the driver maintain vehicle control under adverse conditions. They are not substitutes for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC and VDIM will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. 2. Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. 3. The engine immobilizer is a state-of-the-art anti-theft system. The key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key, it can be costly to replace. If you lose a key, your Lexus Dealer can help, or you can find a qualified independent locksmith to perform high-security key services at [www.aloa.org](http://www.aloa.org). 4. Mark Levinson is a registered trademark of Madrigal Audio Labs, Inc. a division of Harman International. 5. Headphones are for passenger use only. Do not use while operating vehicle. 6. All the airbag ("AB") systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. Please see your *Owner's Manual* for further information/warnings. 7. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. 8. The Lexus Tire Pressure Monitor alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. Please see your *Owner's Manual* for details. 9. Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your *Owner's Manual*. The maximum you can tow depends on the total weight of any cargo, occupants and available equipment. 10. HomeLink is a registered trademark of Johnson Controls. 11. Cargo and load capacity limited by weight and distribution. 12. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your *Owner's Manual* for important cautions and instructions. 13. FUEL CONSUMPTION RATING. These estimates are based on the Government of Canada's approved criteria and testing methods. The actual fuel consumption of the vehicle may vary. Refer to the Government of Canada publication *EnerGuide Fuel Consumption Guide*. 14. The RX 450h is not designed to be driven off-road. 15. The Bluetooth® capability phones listed have been tested for compatibility with Lexus vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. Phones are warranted by their manufacturer, not Lexus. 16. The Navigation System is designed to assist in locating an address or point of interest. XM® NavTraffic requires a monthly service fee and is designed to provide real-time traffic or alternative routes of travel. Discrepancies may be encountered between the system and your actual location. Road system changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available in every city or roadway. Periodic updates available at an additional cost. See your *Navigation System Owner's Manual* for further details. NavTraffic will only be available in Montreal, Vancouver and Toronto. Both Montreal and Vancouver will only have incident data and Toronto will have both incident and flow data. 17. The backup camera, available only with the Navigation System, does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy. 18. CrossBars are not recommended for luggage. 19. Coverage only available in Canada and the continental U.S. Please see your local Lexus Dealer for details. 20. Functioning Satellite Radio requires a compatible receiver and monthly service fee. Please see your Lexus Dealer for further details. Reception of satellite signal may vary depending on location. All fees and programming subject to change. Subscriptions subject to terms and conditions set by appropriate satellite radio provider. 21. 18- or 19-inch tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 24,000 kilometres, depending on driving conditions. 22. The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. Please see your *Owner's Manual* for further information. 23. Maximum output indicates engine plus HV battery output. 24. The Wide-view Side Monitor does not provide a comprehensive view of the front and side areas of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm clearance. Cold weather will limit effectiveness and view may become cloudy. 25. The Lexus Hybrids have up to 70% fewer smog-forming emissions compared against similarly equipped conventional gasoline power vehicles. Based on North American sales data and Federal Tier 2 engine emission requirements. 26. The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system.

### THE BEST WAY TO FINANCE YOUR NEW RX - EASILY, QUICKLY, AFFORDABLY.

 **LEXUS** Choosing a new car can be an overwhelming decision process. Paint colours, leather choices, optional packages. Do I need this? Would I like that? Getting all that clear in your mind is when the easy part begins! Starting with one straight forward statement and a few brief specifics: • Lexus Financial Services does nothing but **Financial Services** finance or lease Lexus vehicles; thus, we know financing and we know Lexus. • Our interest rates are fully competitive and our terms flexible (up to 72 months). • Since we offer Web services, you can: A: check out our rate; B: save time by getting credit approved on-line - before checking out the vehicle(s) of your interest. • Finally, one-stop shopping (at all Lexus Dealerships) saves you time. We invite you to visit us at [lexus.ca](http://lexus.ca) or call us at 1-800-26-LEXUS.

LEXUS CANADA. Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of printing. In some cases, certain changes in standard equipment, options or product delays may occur, which would not be reflected in this brochure. Lexus Canada reserves the right to make these changes without notice or obligation. Your Lexus Dealer is the best source for up-to-date information.
