LEXUS SAFETY SYSTEM-PLUS (LSS+)

True to innovative form, Lexus has raised its safety standards with Lexus Safety System+, an optional accessory package of automated driver-assist technologies. Introduced for select models in 2016, and available on each model by 2018/19, LSS+ helps protect against accidents by scanning for hazards and working to avoid them. With features like Pre-collision System,⁸ Lane Departure Alert,³ Automatic High Beam,¹⁵ and Radar Cruise Control,⁷ the integrated system helps prevent or mitigate collisions, assist drivers to keep within their lane, and enhance road safety during night driving. Whatever the speed, LSS+ enhances driver awareness, decision-making, and vehicle operations to deliver a safer, more engaging driving experience. Visit lexus.ca for more details.

LEXUS SAFETY SYSTEM +

PEACE OF MIND WHILE YOUR PULSE RACES.

The most valuable insurance comes built-in with a comprehensive set of safety features that includes Vehicle Stability Control (VSC),¹¹ Anti-lock Brake System (ABS), Traction Control (TRAC), Electronic Brake-force Distribution (EBD), and Brake Assist (BA).¹² And for even greater confidence, the GS comes equipped with Lexus Safety System+.

LEXUS SAFETY SYSTEM+ Designed to help keep you protected, Lexus Safety System+ provides a host of driver-assist features like Pre-collision System⁸ which warns you of potential impact and readies the brakes for evasive manoeuvres. Lane Departure Alert³ is designed to warn a driver when the vehicle begins moving out of its lane without signaling intent, while Automatic High Beam¹⁵ ensures optimum nighttime visibility. Dynamic Radar Cruise Control⁷ helps you maintain a safe distance from other vehicles by automatically adjusting throttle or braking when cars ahead slow down.

RAISING THE BARRIER IN EVERY DIRECTION

Cover every angle with 10 standard airbags,¹⁶ including driver and passenger knee, driver and passenger airbag Supplemental Restraint System (SRS)¹⁰ front seat mounted side, front and rear side curtain, and rear seat side.

VIRTUAL SENSES THAT ADD TO YOURS Drive with an extra sense of your surroundings with the Blind Spot Monitor⁶ and Rear Cross-Traffic Alert⁴, available on the GS 350 and standard on the GS 450h.
